## LAPORAN PRAKTIKUM PEMROGRAMAN BERORIENTASI OBYEK MODUL 6 ENCAPSULATION

## **Disusun Oleh:**

Nama : Yoga Pramudita

NIM : L200200182

Kelas : D

Matkul: Praktikum PBO

PROGRAM STUDI TEKNIK INFORMATIKA
FAKULTAS KOMUNIKASI DAN INFORMATIKA
UNIVERSITAS MUHAMMADIYAH SURAKARTA
TAHUN 2021/2022

## 7.2 Latihan

## NB: Penjelasan coding ada didalamnya

- 1. Buatlah class dengan fungsi main() dan 5 objek berbeda yang dihasilkan dari class Manager. Kemudian melalui object tersebut tampilkan nilai private variable dari class Manager dan class Karyawan.
- 2. Tambahkan setter pada class Manager untuk memodifikasi nilai baru jamKerja menjadi 8.5!
  - Pertama membuat variabel dengan type private di **kelas Karyawan.java** dan membuat Setter dan Getter untuk variabel tersebut.

• Pada kelas Manager.java membuat variable private yaitu jamKerja, dan membuat Setter jamKerja untuk membuat jam kerja 7.5 ke 8.5 dan membuat Getter untuk gaji manager.

```

```

• Pada kelas Main.java kita membuat objek untuk kelas "Manager.java" dengan nilai "m". lalu kita memanggil method Setter dan Getter dari kedua kelas Karyawan.java dan Manager.java, maka akan tampil 5 objek di Outputnya.

```
